GTIS Partners

New York, NY

Private Equity Summer Analyst

June 2025 - August 2025

- Received one-on-one mentorship from the CCO alongside 10+ senior executives to learn strategic decision-making in finance while collaborating directly with the CTO and IT Analyst on systems support, software deployment, and strategic IT initiatives
- Organized and maintained deal pipeline by categorizing assets as active or closed deals and segmenting by Opportunity Zone designations (OZ-1 or OZ-2) enabling enhanced portfolio tracking and strategic oversight for senior leadership
- Evaluated Microsoft licenses and proposed consolidation strategies projected to save the firm up to 15% in annual software costs
- Contributed to AI integration initiatives to improve operational efficiency and support technological advancement goals

PROJECT EXPERIENCE

Prosperity | Python, R, JavaScript, HTML, CSS

September 2025

- Engineered financial modeling platform at HackMIT analyzing 20+ user financial metrics to generate tailored investment recommendations, multi-year budget forecasts, optimized debt repayment strategies with real-time data visualization
- Designed interactive financial dashboards with 5+ visualization types including waterfall charts and Monte Carlo projections, allowing users to model debt payoff acceleration, compare ROI across investment strategies and long-term wealth trajectories

LEADERSHIP EXPERIENCE

ColorStack | StackHacks Development Team

Binghamton, NY

Founder & President

April 2024 - Present

- Co-Founded StackHacks, a student-run software engineering organization committed to empowering underrepresented students
- Directed an E-Board of 11, executing 10+ technical workshops and networking events that achieved 600% membership growth
- Led product management strategy for 4 full-stack engineering teams delivering technical solutions for campus needs
- Spearheaded StackHacks' inaugural engineering showcase, overseeing \$1,000+ in funding for venue, catering, and decor while orchestrating project demos, internship program presentations, an AWS alumni panel, and awards to secure future sponsorships

Barclays Equity Research Case Competition

Vestal, NY

Competitor

January 2026 - April 2026

- Spearheaded equity research coverage for Lantheus Holdings (NASDAQ: LNTH) with evidence-backed BUY recommendation
- Built detailed analytical models incorporating WACC calculations (9.8%), revenue projections through 2028, and beta analysis (0.72), resulting in LNTH price target of \$130.00 representing 25.0% upside potential from \$104.00 current trading
